

# The Blue Collars - Agree To Disagree

## The Blue Collars

wipe the shit off you're trainers  
because we had a rough night last night.  
and this, i can tell by the look on your face  
and you can mark my words  
yes i can tell by the look on your face that we had a rough night  
well im hoping your barks just as big as your bite  
and this i can tell you, and you can mark my words  
you can mark my words  
you can mark my words  
you can mark my words  
you can mark my words

so why dont you come with us, into a past time  
the last time we spoke i think you crossed the line  
I think you'll have to, Agree to Disagree this time  
So why dont you come with us

I'm getting so sick and tired of the confrontation  
Whenever I'm with you I'm under instigation  
And this I can tell you, and you can mark my words  
Yes I'm getting sick and tired of your testosterone  
If you carry on this way you'll end up on your own  
And this I can tell you, and you can mark my words  
And you can mark my words

So why dont you come with us, into a past time  
The last time we spoke I think you crossed the line  
I think you'll have to, Agree to Disagree this time  
So why dont you come with us
