

# We Love You Jesus

[Ricardo](#)

Opening the door to dine with Him  
Traveling to earth to let us in  
Laying down His glory crown of old  
Setting up the wedding feast foretold Oh, we can't contain our love  
We turn it up loud We love You Jesus  
For so many reasons  
For death and life and freedom  
Even now we love You What manner of love is this that You would say?  
Your sin is mine, I'll take it to the grave then rising  
Death oh, death where is your sting today?  
Death is swallowed up in victory Oh, we can't contain our love  
We turn it up loud We love You Jesus  
For so many reasons  
For death and life and freedom  
Even now we love You We love You Jesus  
In and out of seasons  
In valleys and on top of mountains  
Even now can we sing?  
We love You Jesus, Jesus, Jesus, Jesus We love You Jesus  
For so many reasons  
For death and life and freedom  
Even now We love You Jesus  
For so many reasons  
For death and life and freedom  
Even now we love You We love You Jesus  
In and out of seasons  
In valleys and on top of mountains  
Even now can we sing?  
We love You
