I Needed You

Blackbear

[Intro][Chorus]
When I needed you the most, I needed you
When I needed you the most, I needed you, the most
Now I won't be there to give you what you need
Now I won't be there, no[Bridge]
Spent three whole days, on cocaine
Haven't slept, awake, ain't eat a thing
But you've been on my mind this whole time[Verse 1]
And one of these things that you told me
Is never forget, you'll never be lonely
And I know that, and I know now
Fact is...[Chorus]
[Verse 2]
You know this was never really about us
And everything was always 'bout you
You never knew a thing about trust
And I knew everything about you, what's happening
Three whole years, they can go by
In a blink of an eye, and you won't know it, but
What a damn waste of time[Chorus] + [Bridge][Outro]
Tell you that you're doing it right when you're doing it wrong
You're doing it right when you're doing it wrong
I can't lie no more...
Yeah...
