

# Hold On Me

## Grinspoon

1,2,3,4

oh no its over can i give you a call?  
we've come so far we can't climb over the walls  
yeah...  
caked up, break up and now i want to be friends  
its hard to breathe i hope this doesn't offend  
offend...how come you never want to dance with me anymore?  
lying cold sleep at home while i'm on the floor  
how come you never want to dance with me anymore?  
you've got a hold on me girlknives out, we shout steal a mercedes benz  
look sharp at dark without a power shot lense  
can i come round and have a look in your eyes  
you might just find you'll get a little surprise  
surprise...how come you never want to dance with me anymore?  
lying cold sleep at home while i'm on the floor  
how come you never want to dance with me anymore?  
you've got a hold on me girl  
a hold on me girl  
a hold on me girl  
oh no its over can i give you a call?  
we've come so far we can't climb over the walls  
yeah...how come you never want to dance with me anymore?  
lying cold sleep at home while i'm on the floor  
how come you never want to dance with me anymore?  
you've got a hold on me girl,  
a hold on me girl  
a hold on me girl
