

# Dictatorsaurus (with Snake, Voivod)

## Probot

All set, systems on and ready  
Move forward, level reads okay  
Click, drive, prepare to break away  
One target, today is D-day  
Soaked in lies and fears after all these years  
When the sun will rise, the monster's gonna die  
From now on, things are gonna change  
'Coz we know why and how who you really are  
From now on, things won't be the same  
'Coz we know what you're doing and we know  
Where you're hiding, we know everything  
Next step, engage all procedures  
Code, enter, signal loud and clear  
Star-shell sparkling high in the sky  
All together we'll make this dream come true
