

Turn Around

Westlife

Some people are lucky, baby
I guess I am too
Love found me and I found you
And every time I think it can't get better
You do something new and I'm renewed And when it gets cold
And I think it's over
Look what you go and do Every time I turn around
Give me a reason
For feeling the way that I do
Every time I turn around
Give me a reason
To put my faith in you Even when you let me down
I forgive you
'Cause I know that you feelin' it too
Anytime I turn around
Make me believe in
In things that I already knew You wrap me up in kisses, baby
Head to toe
Let the whole world stare, I don't care
You make me breakfast in bed
Just to show me
No one wants me more, I'm secure And when it gets cold
And I think it's over
Look what you go and do Every time I turn around
Give me a reason
For feeling the way that I do
Every time I turn around
Give me a reason
To put my faith in you Even when you let me down
I forgive you
'Cause I know that you feelin' it too
Anytime I turn around
Make me believe in
In things that I already knew Turnaround, turnaround, turnaround
Turnaround, turnaround, turnaround You know and I know
That it's hard to let go
So why not hold on
Hold on to us You know and I know
That it's hard to let go

So why not hold on Every time I turn around
Give me a reason
For feeling the way that I do
Every time I turn around
Give me a reason
To put my faith in you Even when you let me down
I forgive you
'Cause I know that you feelin' it too
Anytime I turn around
Make me believe in
In things that I already knew Every time I turn around
And when it gets cold
And I think it's over
Look what you go and do Every time I turn around
And when it gets cold
And I think it's over
Look what you go and do Even when you let me down
And when it gets cold
And I think it's over
Look what you go and do Anytime I turn around
And when it gets cold
And I think it's over
Look what you go and do Every time I turn around
And when it gets cold
And I think it's over
Look what you go and do
