

My Little Baby

Twenty Miles

All my friends keep asking what do I see in you
Through their eyes, your beauty doesn't show
Ooh, all they ask is justified looking through the naked eye
But through the eyes of my love, I see the inner beauty of you That's why you're my little baby
That's why you're my little baby
I don't want love on the skin
It's got to come from deep within That's why you're my little baby
My little baby
My heart controls my eyes
And your love I visualize, ohh, yeah All your so called girl friends who compliment your clothes
Know that they're your mama's hand me downs, ooh
The fashion world's turning so fast, you're still trying to catch the past
But in my world of love your style, I know will always last That's why you're my little baby
That's why you're my little baby
I don't care what experts say
Our love is tailor made That's why you're my little baby
My, my, my, my little baby
Like a brand new ermine coat
You keep me warm as toast, little baby You know it's true, little baby
You know it's true, girl
You know it's true, little baby
You know it's true, babe I'm sticking with you, little baby
I'm sticking with you, girl
I'm sticking with you, little baby Always thrill me when you touch me
Honey, you thrill me when you kiss me, little baby, yeah
Ohh, sweet baby, I've got to say I'm thankful
That you're my little baby, my little baby You fill me up with pride
Every time you're by my side, now, now, now, now Ohh, yeah, you're my little baby, my little baby
My little baby, I've got to say
I'm thankful that you're my little baby
My little baby, my little baby Ohh, yeah, you're my little baby, my little baby
My little baby, I've got to say
I'm thankful that you're my little baby
My little baby, my little baby
