

# Make Me Shine

## Echo & The Bunnymen

I'll be with you in your summer  
Winter spring and fall days  
You and me, yeah we've got each other  
I'll be there always Love it when you say  
I'm the gold inside your goldmine  
And I love the way  
You just make me shine, make me shine When our ship hits stormy weather  
We'll ride the tidal waves  
You and me sailing seas together  
In the same boat always Love it when you say  
I'm the gold inside your goldmine  
And I love the way  
You just make me shine, make me shine I'll be with you in your summer  
Winter spring and fall days  
You and me, yeah we've got each other  
I'll be there always Love it when you say  
I'm the gold inside your goldmine  
And I love the way  
You just make me shine, make me shine  
Make me shine, make me shine Make me, make me, make me shine  
Make me, make me, make me shine
