

# Need

## Psychotic Waltz

need, needing, feeling alone  
light never seems to shine  
hiding under a stone  
now I understand that deep inside  
you need to make me feel something inside her  
she's closing the door  
screaming inside her smile  
she don't cry anymore feeling her prayer, breathing her pain  
dreaming her tears gone by  
now she's out of the rain  
now I understand that deep inside  
you need to make me feel words fly like missiles  
they're flying on now  
. . . rest your mind, rest your mind . . .
