

# Which Way to Kyffin

**James Dean Bradfield**

We got directions but nowhere to go  
So should we start to make our way back home  
And forget the things we? ll never know  
We got directions but nowhere to goShould we follow the sunset or  
Trust the stars and follow the road  
Which way to Kyffin, we don? t know  
We don? t know which way to goCHORUS:  
We? ll paint ourselves a different life  
We? ll paint ourselves a different life  
We? ll paint ourselves a different lifeThe green and grey and red and white  
The fading glow of this dark amber sky  
He sits and prays for the light to die  
To show the life hidden from our eyes  
Where the sky is calling him  
Where the light pours through his eyes  
The sky hangs low and fakes its death  
To share its memories one more time  
CHORUS:  
We? ll paint ourselves a different life  
We? ll paint ourselves a different life  
We? ll paint ourselves a different life
