# Heartbeat

## Chris Young

It's better than sipping something strong
The way my name rolls off your tongue
The way the light it hits your eyes
And makes me come alive
It moves me more than any song
When you've got that shade of lipstick on
Across the room or by my sideBaby I can feel my heartbeat, heartbeat
Pounding my chest, you in that dress
Making it jump like a kick drum on repeat
I love the way you make my heart beat, heartbeat
There's no mistaking right now it's racing
Every time that you get close to me
Baby I can feel my heartbeatYou make me feel like I could fly
Like some old roller coaster ride
The way you flip your hair
Well girl it gets me every time
You drive me that perfect kind of crazyBaby I can feel my heartbeat, heartbeat
Pounding my chest, you in that dress
Making it jump like a kick drum on repeat
I love the way you make my heart beat, heartbeat
There's no mistaking right now it's racing
Every time that you get close to me
Baby I can feel my heartbeat
