

# It's Gonna Rain

Lucinda Williams

I'm so tired of these overcast skies  
I'm so tired of the love in people eyes  
I can't wait til I can go away  
And it's gonna rain again today Don't know why I'm still hangin around  
All these night up only get me down  
and it was never my town anyway  
And it's gonna rain again today It's gonna rain  
It's gonna rain  
It's gonna rain again today I been standin on the edge of darkness  
I can see black clouds over head  
This town is never gonna change it way  
And it's gonna rain again today It's gonna rain  
It's gonna rain  
It's gonna rain again today You wanna know why I don't hang out  
You wanna know what it's all about  
There's really nothing left for me to say  
that it's gonna rain again today It's gonna rain  
It's gonna rain  
It's gonna rain  
It's gonna rain  
It's gonna rain again today It's gonna rain  
It's gonna rain  
It's gonna rain  
It's gonna rain  
It's gonna rain again today  
It's gonna rain again today
