Stupid Thing to Say

Treble Charger

I can't relate to you
I don't know what you're thinking
To illustrate my view
Allow me just a drink in some hotel bar
Where the world's not next to mePlease don't say a stupid thing to me
I can't enjoy it now
If you're so tired of you
Maybe it's meYou look at me so plain
It's hard to even notice
It takes so long to explain
You don't have to know this part
Only on the words you really needIf I could speak so slowly
It's not as though you owed me that much more
It's not just what you wear
That's something altogether
