

# Restless

James McMurtry

Advisory - the following lyrics contain explicit language:

She gets a little restless in the spring  
She might follow the lines you sing  
Bullshit though they are  
Cause sometimes thats just the thing  
If delivered with panache and a certain grace  
Fingertips on satin lace  
Cutting cards and quoting Proust  
Whatever turns her wild mare loose  
She gets a little restless now and then  
She feels the changes in the wind  
Way down deep where I cant see  
She can get clean away from me  
With a side step and subtle shift  
And the turning of a key  
Locks me out and lets me drift  
Shell come back if I let her be  
Shell come back if I let her be  
And Im just a little down tonight  
Im just a little down  
A little messed up is all Im saying  
Just a little down tonight  
Im just a little down  
But I believe Ill make it  
Believe Ill make it  
She gets a little restless I can tell  
When she goes back up inside her shell  
And the conversation slows  
To a stop and I might as well  
Be out alone on the highway  
Way off in the Utah sage  
Waving to the railroad crew  
Thats when I get restless too  
She gets a little restless in the spring  
She might follow the lines you sing  
Bullshit though they are  
Sometimes thats just the thing
