High Of 75

Relient K

We were talking together
I said, "What's up with this weather?"
Don't know whether or not, how sad I just got
Was on my own volition or if I'm just missin' the sun
And tomorrow, I know will be rainy at best
And the forecast, I know is that I'll be depressed
But I'll wait outside
Hopin' that I'll catch sight of the sun
Because on and off the clouds have fought
For control over the sky
And lately the weather has been so bi-polar
And consequently so have I
And now I'm sunny with a high of 75
Since you took my heavy heart and made it light
And it's funny how you find, you enjoy your life
When you're happy to be alive
And the temperature is freezing and then after dark
There is a cold front sweeping in over my heart
And we might break up
If I don't wake up to the sun
Because on and off the clouds have fought
For control over the sky
And lately the weather has been so bi-polar
And consequently so have I
And now I'm sunny with a high of 75
Since you took my heavy heart and made it light
And it's funny how you find, you enjoy your life
When you're happy to be alive
Sunny with a high of 75
Since you took my heavy heart and made it light
And it's funny how you find, you enjoy your life
When you're happy to be alive
