

# Silence!

## **BirdyEarns**

How are you doing? Are you ok?  
    Lovely day to get blown away  
    While God and cancer sing a duet  
    Hey, your neighbour's a paedophile  
    Crackheads and Nazis, Amen - Sieg Hail  
Are we having a good time yet?Rip out my eyes, I am finished to see  
    Drill in my brain, won't you ventilate me  
Cut off my head, instant therapy...Silence!Applause - Laughter - Suicide  
    One pill too many, your wife just died  
Where's my copy of Kind of Blue?The sound of blood, the fragile smell  
    Dig this jacket, the strait model?  
Lock me up now, before I hurt youRip out my eyes, I am finished to see  
    Drill in my brain, won't you ventilate me  
Cut off my head, instant therapy...Silence!Janet's coffee enema and exorcism diet  
    Civil wars, Mc Donald's and H.I.V  
    Earthquakes, starvation, cut to commercial  
Another boring tragedyWe are lost, we are all so blasé  
    Cynical and fucked-up, depressed to the bone  
    A world full of zombies, feeding on self-hatred  
            Armed and all alone
