Garbage Man

Aron Burton

She tears the hole of even wider
Its all the darkness up inside her
Holy old yeah
Your mine your everything is mine
With or without a doubt
Where the fuck were you when my lights went out
Yah you don't want to look at it
Nah hey....whoa
Yah you don't want to look at it
Wow
With or without a doubt
C'mon and let me out
Yah where the fuck were you when my lights went out...whoa
Yah you don't want to look at it
Nah hey...whoa whoa
Yah you don't want to look at me
C'mon let me out c'mon and let me out
Yah tie a soul to you when your life goes down
Time flies when you're falling down
I spread my right all over this town
And everyone of you looks the same
And everyone of you feels the same
