

# Love Alone

## Trisha Yearwood

It's been a long road but we got here/it wasn't easy but it was true/we found  
Out through all the bad times/ it all comes down to me and youWe held the greatest expectations/ only to find it  
was not to be/ all the  
Dreams we left behind us/ only serve to set us freeChorus: we don't need no bag of silver/ we don't need no  
fields of gold/ don't  
It make you high/ make you want to fly/ knowing we can live on love aloneWe make out break straight out of  
high school/ you went your way and I went  
Mine/ everything that we went looking for/ was here inside us all the timeChorusWe have shared every tear  
through the years/ for all the laughter and hte pain  
One thing remainsChorus
