

# Action Talks

## Tesla

(Keith, Skeoch) Hey, what's the deal man, don't it feel like something's goin' on  
What's goin' down what's goin' around, and I'm gonna get some  
What's this I see, a familiar face, and it's coming my way  
I said I don't know who it is, it might be you and this just might be my day  
Action talks - now action talks and  
bullshit walks  
Action talks - you got something to say  
Action talks - start talking, or get your walking  
Action talks - start making your move on me-yeah-yeah  
Sure was not nice, but wasn't going right, forget the  
consequences  
Let's work it out instead of workin' out  
We'll work it over till we get it right  
What's this I need, now what's this I like, it came, you sent it my way  
Till I realized all the innocent lies, it was gonna take my heart outta me  
Action talks - now action talks and  
bullshit walks  
Action talks - we got something to say  
Action talks - nobody talkin', ain't no one walkin'  
Action talks - no use in puttin' the blame on yesterday [Solo]  
So here's the deal, it looks like it feels, they got it  
goin' on  
They know it's going down what's going around, while we're waiting, how come  
So the queen don't get to lose the president  
Don't hear a word they say (fuck you!)  
They come together as one and maybe get the job done  
Instead of blaming yesterday  
Action talks - action talks and bullshit walks  
Action talks - you got something to say  
Action talks - no use in cryin', no use in runnin'  
Action talks - no use in puttin' the blame on yesterday  
Action talks - no blamin' yesterday, say what you mean  
Say what you mean (oh talk to me, talk, talk)  
Say what you mean (just talk to me), say what you mean  
Start talkin', start talkin', start talkin'  
Say what you mean, you got a lot to say, you got a lot to say  
Say what you mean, nobody's stoppin' you, nobody's stoppin' you  
So tell me, what the fuck don't you say
