

# Catch A Vibe (prod. 16yrold & outtatown)

## Nessly

[Hook]

Oooh

Just hop inside, catch a vibe  
When I want you, I be quick with my replies  
Baby, don't lie, you been waitin' all your life  
I can't say I want a wife, but come on, give this a try

Oh, catch a vibe

Come with me and catch a vibe

Come on give it a try

All I ask is for you time

Come on and catch a vibe[Verse 1]

Won't be 21 all my life

No promise I won't hit it this lie

Promise that I make it to my wife

If you promise that you gon' testify

I drop the top so you can see the sky

I'm like an Uber driver, candy in my ride

I take a detour, pull your panties to the side

A second time we wait for the back seat to dry

Double the order of double cups

I pour a four for you, ice is perpetual

All my wrist, waterproof, oh

I got some friends and your friends and they fallin' through

[Hook]

Oooh

Oh, catch a vibe

Come with me and catch a vibe

Come on give it a try

All I ask is for you time

Come on and catch a vibe[Verse 2]

I drop you off in the mornin' babe stay the night

There's a wonderful thing between you and I

Tell them hatin' bitches, commit suicide

I had to cut them bitches off and compromise

Yeah, now my lil bitch a doll, I count dollar signs

I turn my sprite to mud, it's all in the science  
I gotta call you back 'fore I call you mine[Hook]
