

Light Of Worlds

Kool & The Gang

In the darkness of this world, please give us your light...Someone's watching, but you can't see

Don't you know what he's after?In the pool hall, behind the 8 ball

Can't you see who he's after?Someone's praying, but they keep playing

With their lives, they don't want themIf by sundown, they all can't be found,

I don't know what will happenWe should try to understand,

To help our brothers all we can

Give us light, give us lots of light

Yes, we need the light, light of worldsSomeone's listening, but they can't hear

Don't you know what he's after?In the alley, go, go, Sally!

Can't you see what he's after?Someone's crying, but they keep lying,

With their lives, they will play someLook who's running, who's that hiding?

Don't you know what he's after?We should try to understand,

To help our sisters all we can

Give us light, give us lots of light

Yes, we need the light, won't you share the light?

Give us light, give us lots of light

Yes, we need the light, won't you share the light?In the darkness of this world, please give us your light...
