

Missing You More

Giant Panda Guerilla Dub Squad

Im sending a message of love to my people back home
and im missing you more

Im missing you more, missing you more

Im sending a message of love to my people back home
and im missing you more

Im missing you more, missing you more

Im sending a message of love to my people back home
and im missing you more

Im missing you more, missing you more

Im sending a message of love to my people back home
and im missing you more

How long must oppression build

No want none of that, no not one of you is one of me

How long must the pressure build

Before you rack a tight unity

How long must frustration build

(powerful harmony) OH I

Before the end is in sight now dont you see

How long must the tension build

Before we can finally break free

Im sending a message of love to my people back home
and im missing you more

Im missing you more, missing you more

Im sending a message of love to my people back home
and im missing you more

Im missing you more, missing you more

Im sending a message of love to my people back home
and im missing you more

Im missing you more, missing you more

Im sending a message of love to my people back home
and im missing you more

Oh so I say

Oh so I say

How long must oppression build
Before the fact not one of you makes fun of me

How long must the pressure build
Before you rack a tight unity

How long must frustration build
(powerful harmony) OH I
Before the end is in sight now don't you see

How long must the tension build
Before we can finally break free

Im sending a message of love to my people back home
and im missing you more
Im missing you more, missing you more
Im sending a message of love to my people back home
and im missing you more
Im missing you more, missing you more
Im sending a message of love to my people back home
and im missing you more
Im missing you more, missing you more
Im sending a message of love to my people back home
and im missing you more

Im missing you more

Oh brother, Oh brother. (I miss you) oh brother more

Oh sister, Oh sister. (Im missing you) Oh sister

Oh mother, Oh mother Oh mother (miss miss miss)

Oh Father, (miss miss) Oh father Oh father (Im missing you more)

Oh brother, (oh) Oh brother. oh brother (missing you more)

Oh sister, Oh sister. Oh sister (Missing you more)

(missing you) Oh mother, Oh mother Oh mother

Oh Father, Oh father Oh father (Im missing you more)

Oh so I say
Oh so I say
