

What It Takes

Aaron Doyle

Whos got
What it takes to be
My guy
What it takes to make
Me shine
What it takes to get
Me fired upWhos got
What it takes to be
My beau
What it takes to make
Me glow
What it takes to make
This beat flowEveryone talks about what they think they need
The make up a list of things: 1, 2, 3...
Everyone is different but where we can agree
Is every girl wants her boy to treat her sweetDont think that being mean will get you anywhere
Dont think that acting cool will make me want to care
I just need your respect, if youre gonna be the one
And if you must apply then try to get the job doneWhos got
What it takes to be
My guy
What it takes to make
Me shine
What it takes to get
Me fired upWhos got
What it takes to be
My beau
What it takes to make
Me glow
What it takes to make
This beat flowTalk can be so cheap
So I just look for your actions
Be good to me
If you want my attraction
Maybe I just want too much
But I dont really care
I know Im worth it
And I know hes out thereWait, wait
You might be a contenda

Hey, hey,
Can I borrow your sweatshirt Normally Im not the one
To say hello first
But if I didnt I might miss out
And that might hurt Whos got
What it takes to be
My guy
What it takes to make
Me shine
What it takes to get
Me fired up Whos got
What it takes to be
My beau
What it takes to make
Me glow
What it takes to make
This beat flow Ive been contemplating
What it takes
To make me give my heart
Could you be the one, standing
In the crowd
Im waiting to find out
Im waiting, waiting, waiting, oh Whos got
What it takes to be
My guy
What it takes to make
Me shine
What it takes to get
Me fired up Whos got
What it takes to be
My beau
What it takes to make
Me glow
What it takes to make
This beat flow Whos got
What it takes to be
My guy
What it takes to make
Me shine
What it takes to get
Me fired up Whos got
What it takes to be
My beau
What it takes to make
Me glow

What it takes to make
This beat flow
