# It's Over Now

## Kyla

You
You turned and walk away
I didn't know what to say
I closed my eyes to hide
The pain I felt inside
I could never understand
How love went out of hand
And now there's nothing I can doThough the feeling hasn't passed
Sad to say our love didn't last
Please don't ask me to pretend
`Cause I know it's over
When I'm done forgetting you
You can say what you wanted to
Please don't ask me to pretend
`Cause I know it's over nowNow I'm left here all alone
A heart without a home
How will I ever find
The love I left behind
Once, the days were ours to share
Now you don't even care
And there's still nothing I can doThough the feeling hasn't passed
Sad to say our love didn't last
Please don't ask me to pretend
`Cause I know it's over
When I'm done forgetting you
You can say what you wanted to
Please don't ask me to pretend
`Cause I know it's over now...Though the feeling hasn't passed
Sad to say our love didn't last
Please don't ask me to pretend
`Cause I know it's over
When I'm done forgetting you
You can say what you wanted to
Please don't ask me to pretend
`Cause I know it's over now(Instrumental)Though the feeling hasn't passed
Sad to say our love didn't last
Please don't ask me to pretend
`Cause I know it's over
When I'm done forgetting you

You can say what you wanted to
Please don't ask me to pretend
`Cause I know it's over now
