Lead the Way

Sixpin

I'm not above asking
Asking for your help
I'm not above asking
I know myself
For you to find a way
I'm not above trying to understand
I'm not above trying to take your hand
I'm not above
I'm not above trying to understand
I'm not above trying to take your hand
I'm not above
You come closer to me
Breaking through to you
And closer, hiding all
You know me better than I do
It's better if you lead the way
You know me better than I do
It's better if you lead the way
You know me better than I do
It's better if you lead the way
You know me better than I do
It's better if you lead the way
