

# Lead the Way

## Sixpin

I'm not above asking  
Asking for your help  
I'm not above asking  
I know myself  
For you to find a way  
I'm not above trying to understand  
I'm not above trying to take your hand  
I'm not above  
I'm not above trying to understand  
I'm not above trying to take your hand  
I'm not above  
You come closer to me  
Breaking through to you  
And closer, hiding all  
You know me better than I do  
It's better if you lead the way  
You know me better than I do  
It's better if you lead the way  
You know me better than I do  
It's better if you lead the way  
You know me better than I do  
It's better if you lead the way
