Civilization In Regression

Massacra

(Lyrics : Fred Death)
No love, absolute hatred
Civilization in regression
The human race was born to make war
To hate each other
The nature only made one mistake to
Give intelligence to human being
Mutual assured destruction
Civilization in regression
Devasting reign in the cause of god
Kingdome of corruption, madmen in command
People die by torture and pain
Rotting eyes, scorchung flesh, decapitation
Im under the impression to live an eternal nightmare
The world seems to be in a hopeless situation
Men like fighting and have no fear
Men feel no shame, theyre hunger for power
Distorting truth, religion of the lie
No one trust no one
Mutual assured destruction
Civilization in regression
Absolute rage, racial extermination
See them cry, watch them die
Theres no heaven but just hell called
Planet earth
I hope the end is near
We have to be exterminated
I wish I could do it and them kill myself
Thats the ultimate solution
I just cant wait for that day
