T.F.T.T.I.

Euroz

[Verse 1]
I guess I'mm love you from a distance
Feel it ain't no other way
I'm the furthest thing from perfect
When she's in another state
Know I'm quick to pull
Long shit like hurry up and wait
Get that man a shot
He like Curry with the J
Lemme show you what you missing
Give you my attention
Like fuck all of this tension
Memories that made
That keep us reminiscing
On each side
Swear you give them hoes your business
You the type to reciprocate with interest
From where we started
Ain't no telling how we ending
Or end up
I know you wish shit was endless
Lemme know that you want it
Girl, you know I'm with all this
You gon' see when you walk in, walk in[Hook]
She 2 feet, 10 toes in
'lettos slip, girls on them
You not know, then you knowing
Swear you always have a sole in
Smoke fuck, so consoling
You know my line, lemme know it
Know my line, lemme know it
She 2 feet, 10 toes in
'lettos slip, girls on them
Cause you not know, then you knowing
Swear you always have a sole in
Smoke fuck, so consoling
You know my line, lemme know it
You know my line, lemme know it
[Verse 2]

When is enough just enough?
We connected, not just enough
You can take it all, will adjust
Sex be OD when it's us
Fuck around and get you cuffed
You been waved on, press your luck
Cross the lines, fuck a boundary
Blowing some tree and we cloudy
Keep it lowkey, no announcing
Shawty was lost 'til I found her
Now I'm on her head like a bounty
Time flying, who's counting
Somewhere ducked off and we lounging
Off the grid, never crowded
Need a bad one next year
Can't be stingy with it, that's childish
Lemme know that you want it
Girl, you know I'm with all this
You gon' see when you walk in, walk in[Hook]
She 2 feet, 10 toes in
'lettos slip, girls on them
You not know, then you knowing
Swear you always have a sole in
Smoke fuck, so consoling
You know my line, lemme know it
Know my line, lemme know it
She 2 feet, 10 toes in
'lettos slip, girls on them
Cause you not know, then you knowing
Swear you always have a sole in
Smoke fuck, so consoling
You know my line, lemme know it
You know my line, lemme know it
