# Meteor

## Voivod

Evaluate just what it's worth
This rotting world, this dump we call the earth
What do I care, have no regret
The future sky, a blackened mournful deathDisbelief, irritate
Disagree, circulate
Expedite, disengage
Blast off, disarrayRadio signals, complete shutdown
Stereo vision, freedom unboundWhat do I see, a layer of cloud
In front of me the future wanders onShift the gear, elevate
Disappear, gone away
Lost control, hesitate
Destroy, terminateRadio signals, complete shutdown
Stereo vision, freedom unbound
Radio signals, complete shutdown
Stereo vision, freedom unboundShutdown, shutdown
Shutdown, shutdownA shooting star is crashing down
This meteor has left a burning groundNegative, desolate
Sorrowful, purity
Positive, energy
Depressed, isolateRadio signals, complete shut down
Stereo vision, freedom unbound
Radio signals, complete shut down
Stereo vision, freedom unboundI don't care no more
I don't fucking care
I don't care no more
I don't give a shit
