Until The Stars Run Out

Joe Mcelderry

Fingerprints are on the weapon
I have fallen for deception
Not again
Not again with you
And I am hearing your confession
Will I never learn my lesson?
Not if I'm
Not if I'm with you
I do so well when I'm alone
The truth is all I know
I am good at falling in love
Not so good at falling out
This song's for you if you're the one
The one that I can't do without
I am great at being in love
Not so great at being out
This song's for you if you're the one
Who'll love me till the stars run out
But then I call and I am waiting
I hear your voice and I am fading
Not again
Not again with you
So run away where far from home
See this is all I know
I am good at falling in love
Not so good at falling out
This song's for you if you're the one
The one that I can't do without
I am great at being in love
Not so great at being out
This song's for you if you're the one
Who'll love me till the stars run out
Till the stars run out
Till the stars
Till the stars run out
Till the stars
I am good at falling in love
Not so good at falling out
This song's for you if you're the one

The one that I can't do without
I am great at being in love
Not so great at being out
This song's for you if you're the one
Who'll love me till the stars run out
Good at falling in love
Not so good at falling out
Good at falling in love
Not so good at falling out
