Neon Blue

The Mavericks

And when the sun goes down
Your memory's still hangin' 'round
Inside this honky tonk
Where I think of you
The flashing light's shine bright
And sparkle in the night
And my heart turns a neon blueI see your emerald eyes
Your ruby lips on mine
Remembering all of the love
That we once knew
Red dress hangs on the door
Black high heels on the floor
And my heart turns a neon blueWhat a cold, cold sensation
From night into day
Temptation, temptation
Has taken you away
I see your emerald eyes
Your ruby lips on mine
And my heart turns a neon blueWhat a cold, cold sensation
From night into day, aye, aye
Temptation, temptation
Has taken you away
And when the sun goes down
Your memory still hangin' 'round
Leaving my heart a neon blue
Turning my heart a neon blue
