Kiss My Feet

Laura Mvula

I feel lost and found at the same damn time
Made my bed but I can't rest
I got losing on my mind
I got losing on my mindDreamt I played with fire
Played with a noose around my neck
But you flew by to save me
I try to find the reasons why you found me
I found youAnd I've been waiting for you
And I've been lost without you
And I've been praying for someone like youTried to build my house on a concrete ground
Stone turned into sand
And I was drowning deeper on the land
And I was drowning
And I was doubting youTake my trembling hands
Kiss my busy head
And I will hold your hand
And we can paint our story red
We can paint it togetherAnd I've been waiting for you
And I've been lost without you
And I've been praying for someone like you
