How Bad

Midnight to Twelve

So what makes you think think that I don't see
Your not doing what your told
And what makes you think thay I'm gonna believe
Every lie you ever told
There you go
Letting it fall away

(Chorus)
How bad do you want it
How bad you're gonna get it

So what makes you think that I don't see
Every time you did not show
And what makes you think that I'm gonna believe
Every lie you ever told
So there you go
Letting it fall away

(Chorus) X4
