Guilty

Complete Control

Your objection is overruled
I'm guilty of everything
No need for the evidence
Destroy your innocenceI'm guilty of everything
(What do we need?)
To line up and face the penalty
Don't worry we're all alone in the end
(What do we need?)
So what's the point when I'm giving inYou're a victim of prejudice
Still you pass judgment
The accusations are proven true
We'll I'm no better than youDestroy, destroy
I'm giving in now...
