

Trust Me

Backstreet Boys

Let me tell you about this girl I know
First glance and damn she stole my heart
She amazes meThe way she moves, just the way she moves
Hold me back just the way she moves
Take me to the disco
Make me danceOh honey spinnin' round' like a queen
And the way you do your thing
Oh you're mesmerizing me
Oh I'mma tell you how I feel
And the feeling is so real
Baby
It's so simpleYou've got to call me
And I'mma call you back
Kiss me
I'mma kiss you back
Love me
And baby I'mma love you back
You've got to trust me, trust meHold me, whenever you're alone
Baby, even when you're crazy
Love me, baby I'mma love you back
You've got to trust meOur love, you and me
Underneath the willow tree
Kissing, loving, making sweet sexy baby
The grass is greener on the other side
There's no other side when it's you and I
Tonight, let's count the starsYeah, oh time will always be our enemy
For tonight baby, come lie here next to me
I can never get enough of your blue eyes
Just another butterfly sighYou've got to call me
And I'mma call you back
Kiss me
I'mma kiss you back
Love me
And baby I'mma love you back
You've got to trust me, trust meHold me, whenever you're alone
Baby, even when you're crazy
Love me, baby I'mma love you back
You've got to trust meOh let's believe that well find out
How it feels with something so right

Don't you think it's time
To let your guard down You've got to call me
And I'mma call you back
Kiss me
I'mma kiss you back
Love me
And baby I'mma love you back
You've got to trust me, trust me Hold me, whenever you're alone
Baby, even when you're crazy
Love me, baby I'mma love you back
You've got to trust me You've got to call me
And I'mma call you back
Kiss me
I'mma kiss you back
Love me
And baby I'mma love you back
You've got to trust me, trust me Hold me, whenever you're alone
Baby, even when you're crazy
Love me, baby I'mma love you back
You've got to trust me Trust me
