

# Christmases When You Were Mine

Taylor Swift

Please take down the mistletoe  
'Cause I don't wanna think about that right now  
'Cause everything I want is miles away  
In a snow covered little town  
Mama's in the kitchen worrying about me  
Seasons greetings hope you're well  
I'm doing alright if you were wondering  
Lately I can never tell  
I know there shouldn't be a lonely time  
But there were Christmases when you were mine  
I've been doing fine without you, really  
Up until the nights got cold  
And everybody's here except you, baby  
Seems like everyone's got someone to hold  
But for me it's just a lonely time  
'Cause there were Christmases when you were mine  
Merry Christmas everybody  
That'll have to be something I just say this year  
Bet you got your mom another sweater  
Were your cousins late again?  
When you were putting up the lights this year  
Did you notice one less pair of hands?  
I know there shouldn't be a lonely time  
But there were Christmases when I didn't  
Wonder how you are tonight  
'Cause there were Christmases when you were mine  
You were mine
