

Hard to Miss You

Mojave 3

Wish that I could make you laugh and make you feel whole again,
I can not lay here on this line.

Wish that I could see you now, standing there without a care,
I guess you'd make me smile.

It's hard to miss ya, it's hard to miss ya... They say the world's a smaller place but they don't say it to your face,
It's a pretty stupid thing to say.

I don't feel it in my space, I don't feel ya in my space,
I just want to see ya in my space

It's hard to miss ya, it's hard to miss ya...
