

# Turn to Me

[Vanessa Amorosi](#)

From all the taking downs, to the drive in far away  
As if we're lost and found, removing us every day, yeah  
Pushing things too far or never moving it along  
Forgiving and forget only makes one person strong  
Hoping and fighting, resisting, denying with your classic words of Turn to me, that's what you say when you're  
Burning me, that's what you do when you  
Turn me, need more days and time to turn you off  
Turn to me, that's what you say when you're  
Burning me, that's what you do when you  
Turn me, need more days and time to turn you off There's no familiar face or a hand to cling upon  
We take the short distance but it took so very long, long  
Hoping and fighting, resisting, denying with your classic words of Turn to me, that's what you say when you're  
Burning me, that's what you do when you  
Turn me, need more days and time to turn you off  
Turn to me, that's what you say when you're  
Burning me, that's what you do when you  
Turn me, need more days and time to turn you off Knowing that we'll jump a little too high to live  
Knowing that it's safe but not safe enough to give  
Your heart, your dreams, no give, no receive  
Respect, believe, turn to me Time to turn you off  
Resisting, denying Turn to me, that's what you say when your  
Burning me, that's what you do when you  
Turn me, need more days and the time to turn me off  
Turn to me, that's what you say when your  
Burning me, that's what you do when you  
Turn me, need more days and the time to turn me off Turn to me, that's what you say when your  
Burning me, that's what you do when you  
Turn me, need more days and the time to turn me off  
Turn to me, that's what you say when your  
Burning me, that's what you do when you  
Turn me, need more days and the time to turn me off Turn to me, that's what you say when your  
Burning me, that's what you do when you  
Turn me, need more days and the time to turn me off  
Turn to me, that's what you say when your  
Burning me, that's what you do when you  
Turn me, need more days and the time to turn me off
