

# The Undefeated

## Iggy Pop

Well, I was gently raised  
Fussed over in school  
Fed and housed and entertained  
Wanting to be cool Summer's in the grass  
Winter's warm and slow  
Until the one thing on my mind  
Was to just get out and go We're the undefeated  
We've got what they want  
We're so bored and spoiled  
Life is just a bag of pot We're the undefeated  
TV in the shade  
Girls at all our parties  
We have really got it made There's a real mean world outside  
Where many lives are lost  
But struggle builds character  
And we are growing soft I don't want to sit  
And watch no TV show  
I want to roam and be challenged  
I want to grow and grow We're the undefeated  
We've got what they want  
We're so fucking spoiled  
Life is just a bag of pot We're the undefeated  
TV in the shade  
Girls at all our parties  
We have really got it made What have we made?  
A giant jail, a bunch of walls  
That's all that we've made, oh, my Yeah, we're the undefeated  
Always undefeated  
We're the undefeated  
We're the undefeated, now We're the undefeated  
Always undefeated  
We're the undefeated  
We're the undefeated, now We're the undefeated  
Always undefeated  
We're the undefeated  
We're the undefeated, now
