The Line Is Fine

Travis

Look at me I'm so disgusting
I will never find another quite like you
You make me blue with the things you doNow look at you you're so familiar
We could be so cool together
All the time could all be fine
We're on the line, the line is fineOpen up the window, the line is fine
Standing on the ledge, oh well I don't look down
Looking at the people well they all look fineIt's not just life or death
And yesterday we talked together
But tonight it's just the weather chillin' meWhat's the point in silly talking
We could get there quicker walking
Down the line could all be fine
We're on the line, the line is fineOpen up the window, the line is fine
Standing on the ledge, oh well I don't look down
Looking at the people well they all look fineIt's not just life or death
But staring at the faces standing in a row
Think of all the places they have yet to go
They don't knowOpen up the window, the line is fine
Standing on the ledge, oh well I don't look down
Looking at the people, well they all look fine
It's not just life or death, the line is fine
It's not just life or death, the worst line is mineThe line is fine, the line is fine
The line is fine, the line is fine
The line, the line, the line is fine
The line is fine, oh fineFine
Fine
Fine
