

Savages

Breathe Carolina

Break out again
You start to feel
It's all pretend
This time it's real Body starts to give in
Try to keep your eyes open
This is where you breath in
Right now you one of us! Wolves in our own skin (what!), we're savages!
We act so primitive (what!), we're savages!
Do the rain dance, like you're on fire
Like you're on fire!
We're savages (what!) What! Shape shift begin
You've lost the fear
You've found a friend
You're safe in here Body starts to give in
Try to keep your eyes open
This is where you breathe in
Right now you one of us! Wolves in our own skin (what!), we're savages!
We act so primitive (what!), we're savages!
Do the rain dance, like you're on fire
Like you're on fire!
We're savages (what!) What!
Â
This is happening, we are savages!
This is happening, we are savages! Wolves in our own skin (what!), we're savages!
We act so primitive (what!), we're savages!
Do the rain dance, like you're on fire
Like you're on fire!
We're savages (what!) This is happening (what!)
We are savages! (we're savages, what!)
This is happening (what!)
We are savages! (we're savages, what!)
