

# Somewhere in Time

**John Barry**

Somewhere in time  
We met on timeless hills  
And in the evening mist we kissed  
And time stood still  
Before the dawn, we found forever  
Moments are timeless when I feel your caress You'll always be inside of me  
And I know when love is true  
It's always with you Somewhere in time  
I came to realize  
Love never goes Love never goes  
Once it has touched your heart  
Just like the strength of wine that's left  
As two lips part  
A taste of love will linger after  
I know the meaning of all that I see You'll always be inside of me  
And I know when love is true  
It's always with you Somewhere in time  
I came to realize  
Love never goes
