There Goes My Heart (Live In Manchester)

Lisa Stansfield

I'm just the one you see
Every day
But you don't look at me the way
I always pray you will
I'm just another face lost in the crowd
With all the unfamiliar faces and places
But still
There goes my heart
There goes my heart again
I would give anything
Just to let you know
There goes my heart
There goes my everything
Turning inside out
Inside down
Turning inside out
Inside downI think of all those looks you've thrown my way
How I missed all those glances for romancing
You didn't even care
I take the long way home
Imagine you're there
Right there by my side
Gone for the way every night
There goes my heart
There goes my heart again
I would give anything
Just to let you know
There goes my heart
There goes my everything
Turning inside out
Inside down
Turning inside out
Inside downI sit in the same old place
And look at your amazing face
Day after day
And then you walk away
There goes my heart
There goes my heart again
I would give anything

Just to let you know
There goes my heart
There goes my everything
Turning inside out
Inside down
Turning inside out
Inside downThere goes my heart
There goes my heart again
I would give anything
Just to let you know
There goes my heart
There goes my everything
Turning inside out
Inside down
Turning inside out
Inside down
