Loves Great Adventure (Extended Version)

Ultravox

Standing on my own
It didn't mean that much to me
I thought I had it all
I didn't see the mystery
I stood the test of time
I took the step to find
Love's great adventureI spoke a million words
They didn't mean that much to me
They rang around my head
Like empty tuneless harmonies
Love's great adventure mineLying side by side
It didn't mean that much to me
I started to enjoy
The poetry and symphonies
I took it in my stride
I hailed the Day i tried
Love's great adventureA fool who couldn't see
It didn't mean that much to me
I couldn't understand
That's how the game is meant to be
Love's great adventure mine
