Don't Come Easy

Matt Wertz

Today is gonna be the day
I'll find the words I need to say
Cause there ain't any other way
To tell you how I'm feeling
This is where I've always turned
Retreated so I don't get burned
And now with these lessons learned
I'm ready for some healin'
So tell me that you'll be my baby
We don't have to be lonely no more
And I've never ever been this for sure
And all I'm asking please
Is that you'll stay with me
When it don't come easy
I know that you're so afraid
Cause you never gave your heart away
Surviving on a little faith
Well, keep on believin'
Slide in close to me

You can trust me with anything
You is all ya gotta be
Cause babe, I'm never leavin'
So tell me that you'll be my baby
Cause we don't have to be lonely no more
And I've never ever been this for sure
And all I'm asking please
Is that you'll stay with me
When it don't come easy
Cause we don't have to be lonely no more
And I've never ever been this for sure
Cause we don't have to be lonely no more
And I've never ever been this for sure
And all I'm asking please
Is that you'll stay with me
Even baby when I dream
That you'll be with me
When it don't come easy, yeah yeah yeah
When it don't come easy, baby, huh huh

When it don't come easy, oh no no
When it don't come easy, yeah yeah yeah
