

# Sorceress

## Cancerslug

dark priestess comes to me in spite  
sucking unholy delight  
she spits my dicksnot out, onto the wall  
with a, "fuck it all!"  
and she makes my body ache  
i can feel the mental break  
how will i last a single minute more with this pagan whore  
all i know is she is mine  
and i am hers and thats just fine  
to fuck so fierce we lose our minds  
two beast in heat until we die  
and i would kill the world for you  
if you only ask me to  
my sorceress, what would you have me do
