

Hollow Faces

Harmony

Welcome to this faithless masquerade
Take your place and see what is new
The winds of change will take your breath away
All seems new but nothing has changed
Let the thing that you have lost your faith
Let them believe that you have gone astray.
Break the silence and leave all fears
How can we survive. Hiding all inside
Break the bonds wipe away all tears
Don't live in the shadows,
Don't let the fool you
Staring into all these hollow faces
They're burning you, just walk away
Not a single one should make you stay
Make the change and go all the way
Let the thing that you have lost your faith
Let the believe that you have gone astray
Break the silence and leave all fears
How can we survive hiding all inside
Break the bonds wipe away all tears
Don't live in the shadows.
Don't let the fool you.
Break the silence and leave all fears
How can we survive hiding all inside
Break the bonds wipe away all tears
Don't live in the shadows.
Don't let the fool you.
