Set the Record Straight

Reef

On the floor, can you feel it?
Yes, definitely
On the floor, can you feel it?
I've been here moving all nightOn the floor, do you mean it?
Does it really matter?
On the floor, can you feel it?
Oh, I canI need a time that's physical
The moments your's you have it
You are the one that I adore
And you can see I want itSome people born to criticize
It's just a song, get on it
Do not forget you're an animal
So let it outI've got to feel it
And set the record straight
Because I'm singing
To set the record straightOn the floor, can you feel it?
I've been smiling loads
On the floor, can you feel it?
Yeah, I've come a long way from my homeOn the floor, do you mean it?
Why sure I put a foot in my mouth sometime
On the floor, can you feel it?
I can feel all rightI need a time that's physical
The moment's yours, you have it
You are the one that I adore
And you can see I want itSome people born to criticize
It's just a song get on it
Do not forget I'm animal
So let it outI've got to feel it
To set the record straight
Because I'm singing
To set the record straightI'd open your mind
But you've got to find it
All I say to you is don't criticize
Because you half don't mind it
All good things to youI'd open your mind
But you've got to find it
All I say to you I've got to feel it
And set the record straightBecause I'm singing
To set the record straight
