

Vampirian Love

Galadriel

By full moon, in the darkest hours
In my heart, in my house of power
I can feel desire of your shadeMystic haze's falling down on me
In the circle of the forest trees
If I want to live, I need your bloodThrough an ancient land
I'm wondering to you
With wind in my hair
I'm wondering to my loveFor a moment, I have seen your face
In my mind, I remember that naked body
It was bleeding out of woundsI drunk warm blood from her veins
She was my cure for all my pain
With her love, I can now LIVE!We drunk the blood, each other
I felt the change in my heart
We were like wolves, wolves in the huntThen I embraced her
And veiled to my cloak
When the moon set down
We had to disappear... disappear!!!
