

# Five Against The World

## Story Of The Year

I never thought I'd see the day  
That we honestly could say  
We stand five against the world  
And the doors are open  
Through all those years  
I would've died to be right here  
I never thought of backing down  
With one chance to make a sound  
So we'll take our chance right now  
These are the days we will remember  
(These are the days we will remember)  
And these are the days we won't forget  
(These are the days we won't forget)  
These are the times we've shared  
These are the promises we've made  
These are the days  
Revolution dead and gone  
Still integrity holds strong  
We stand five against the odds  
And rise through it all  
Relentless form and dedication carried on  
We stand tall and won't back down  
With one chance to make a sound  
So we'll take our chance right now  
These are the days we will remember  
(These are the days we will remember)  
And these are the days we won't forget  
(These are the days we won't forget)  
These are the times we've shared  
These are the promises we've made  
These are the days that we won't forget  
Yeah, we carry on convictions  
Learning as we go  
Living out the only life we know  
These are the days we will remember  
(These are the days we will remember)  
And these are the days we won't forget  
(These are the days we won't forget)  
These are the times we've shared

These are the promises we've made  
These are the days we won't forget  
We won't forget, we won't forget
